

The New Age Of Land Management

American
Land Consultants

RENEWABLE ENERGY

WHO WE ARE

ALC and its team is at the forefront of providing top notch land and utility right-of-way services. We offer reliable expertise and experience at a cost-effective price. Our goal is to separate ourselves from our competition by providing detailed results tailored to your specific project's needs.

ALC provides services for the Green Energy industry, including wind and solar projects. We provide title and research analysis, cost projections, right-of-way assessments, acquisitions, permits, and document preparation.
